Kumasi, Ashanti Region, Ghana | +233 55 301 2862 | fosukemmanuel@gmail.com | linkedin.com/in/emmanuel-fosu-2341121b7

PROFILE

IT Coordinator and web developer with hands-on experience across web application development, network and systems administration, and database-driven solutions. Proven record of designing and deploying cloud-based school management systems, institutional web portals, and business websites, combining technical delivery with an educator's eye for usability and impact. Currently pursuing an MSc in Information Technology.

CORE TECHNICAL SKILLS

Web Development	HTML, CSS, JavaScript, WordPress web design, responsive/mobile-first design, front-end & back-end integration
Databases & Backend	SQL, Supabase, Firebase, offline-first architecture
Programming	Java, C++, Python
Data Analysis	Microsoft Excel data analysis, data literacy, data-driven decision making
Networking & Systems	Network architecture & administration, system administration
Instructional Design	Articulate 360, Articulate Rise, needs analysis, agile instructional design
Design & Productivity	Adobe Photoshop, graphic design, Microsoft Word/Excel/PowerPoint

PROFESSIONAL EXPERIENCE

IT Coordinator & Computing Teacher <i>Nkwantakese D/A JHS, Ghana Education Service — Kumasi, Ashanti</i>	<i>Feb 2022 – Present</i>
- Serve as IT Coordinator, overseeing the school's technology infrastructure, digital resources, and instructional computing systems. - Founded and lead the school's Computing Club, building an extracurricular pathway for student digital skills. - Integrate web-based applications and digital tools into instruction, expanding staff and student use of technology for research and coursework. - Collaborate with school leadership on digital record-keeping and administrative technology needs.	

Freelance Web Developer & Graphic Designer <i>Self-Employed — Kumasi, Ashanti</i>	<i>May 2019 – Present</i>
- Design and build institutional and business websites using WordPress and custom theming, translating client requirements into functioning, responsive sites. - Delivered the Nkwanta Kese DA JHS Portal — a school web portal for communication and record-keeping, live at nkwantakesedajhs.great-site.net. - Delivered Ryonysam Travel Consult — a responsive business website for a travel consultancy, live at ryonysamtravelconsult.great-site.net. - Architected a cloud-based Grading, Reporting & Quizzing System (HTML, CSS, JavaScript, SQL, Supabase, Firebase) enabling real-time assessment and automated grading accessible from anywhere. - Built and deployed a personal portfolio site (four-page, mobile-first HTML/CSS build with a Netlify Forms contact system) hosted on Netlify. - Provide graphic design services — branding, marketing materials, and digital assets — for local businesses and institutions under the KForce Graphics brand.	

SELECTED PROJECTS

- Complete Grading, Reporting & Quizzing System — unified cloud-based assessment platform for basic education (HTML/CSS/JS, SQL, Supabase, Firebase).

- Nkwanta Kese DA JHS Portal — WordPress institutional portal with custom theming.
- Ryonymsam Travel Consult — responsive WordPress business website.
- Online Examination & Grading System — full Java/JavaFX Maven application (27 files) demonstrating encapsulation, inheritance, polymorphism, and abstraction.
- Intelligent Tutoring System prototype — Python-based adaptive learning tool aligned to Ghana's NaCCA Common Core curriculum for JHS Mathematics, Science, English, and Social Studies.
